

Date Updated September, 2012 **Wholesale Licensees By State**

*Note: The following nurseries are licensed to propagate one or more of the plants created and patented by Dr. Carl Whitcomb. Many other nurseries purchase young plants from these firms and grow the patented plants to a larger size before offering for sale. If you are having difficulty finding a retail source to purchase these new plants, contact your local retail nursery, **tell them** to contact one of these nurseries. **DO NOT** contact the nurseries listed here for retail sales, they will not sell to individuals, as they are strictly wholesale suppliers.*
